

## TRABAJOS DE GEOLOGÍA N° 4 (1971)

### THE CARBONIFEROUS OF NORTHWEST SPAIN (PART II)

- pp. 365. PELLO, J. and CORRALES, I.: Characteristics of the sedimentation of early Westphalian D rocks near the north-western border of the Central Asturian Coalfield (Cordillera Cantábrica).
- pp. 373. RAMOVS, A.: Connections of the Upper Carboniferous brachiopod faunas from the Carnic Alps and Karavanke Mountains with those of the Cantabrian Mountains (Spain) ROMANO, M. - A new Proetid trilobite from the Lower Westphalian of North-west Spain.
- pp. 385. WAGNER, R. H.: The stratigraphy and structure of the Ciñera-Matallana Coalfield (prov. León, N. W. Spain).
- pp. 431. WAGNER, R. H.: Carboniferous nappe structures in north-eastern Palencia (Spain).
- pp. 461. WAGNER, R. H.: The Westphalian D floras of the Olloniego and Esperanza formations in the Central Asturian Coalfield.
- pp. 507. WAGNER, R. H. and FERNÁNDEZ-GARCÍA, L.: The Lower Carboniferous and Namurian rocks north of La Robla (León).
- pp. 533. WAGNER, R. H. and VAKER, W. J.: The distribution and development of post-Leonian strata (upper Westphalian D, Cantabrian, Stephanian A) in northern Palencia, Spain.
- pp. 603. WAGNER, R. H., WINKLER PRINS, C. F. and RIDING, R. E.: Lithostratigraphic units of the lower part of the Carboniferous in northern León, Spain (with a "Note on some goniatite faunas" by C. H. WAGNER-GENTIS).
- pp. 665. WAGNER-GENTIS C. H. T.: Some goniatites from Westphalian D (Upper Moscovian) strata in northern Palencia, Spain.
- pp. 677. WINKLER PRINS, C. F.: The road section east of Valdeteja with its continuation along the arroyo de Barcaliente (Curueño Valley, León) (with a "Note on *Leonardophyllum leonese* sp. nov." by G. E. DE GROOT).
- pp. 687. WINKLER PRINS, C. F.: Connections of the Carboniferous brachiopod faunas of the Cantabrian mountains (Spain).
